Growth Properties: Adherent

STR Profile: May be obtained at <https://strdb.cccells.org/>
Notes: The Childhood Cancer Repository has a matching cell line available from this same patient – CHLA-83. The repository has a matching EBV lymphoblastoid cell line – COG-V-538.

All COG Repository cell lines are antibiotic-free, mycoplasma-free, and cryopreserved in 50% FBS / 7.5% DMSO. Each vial label contains the cell line name, passage number, total viable cell count (usually 5-10e6), the overall cell viability, and date frozen. All cell lines are validated with original patient sample by STR analysis
